MUSIC

This course offers a solid musical foundation, requiring performing, composing, listening and analytical skills in almost equal measure; there is considerable scope for the development of the individual's special talents. You will improve your skills in performing and composing in a range of styles. You will listen to a wide variety of music and develop a more informed appreciation of how and why it was written and/or performed. Sixth Form music students are encouraged to take some responsibility for music within the school, participating in activities and taking the lead whenever possible.

ENTRY REQUIREMENTS

- A keen interest in creating and listening to different styles of music and a wish to broaden your experience and deepen your understanding of both live and recorded music.
- The ability to perform on an instrument or sing to a standard that is roughly equivalent to a pass at Grade 6.

LINKS WITH OTHER SUBJECTS

Music links well with Modern Languages, English and History but can also be a good complement to studying science subjects.

HIGHER EDUCATION AND CAREER OPPORTUNITIES

Music can be studied at either a university or a conservatoire, which focuses on performing. The music industry is vast and there are a wealth of job opportunities - as a composer, with a record company, running arts festivals, as a music critic, in music therapy and in sound engineering, to name a few.
