

## **Civil/Structural Engineering Apprentice**

**Are you about to complete your A-levels or equivalent college course and are considering a path as a Civil or Structural engineer?**

**Do you want to join an award-winning multidisciplinary consultancy practice offering an incredible training package?**

**If so then please read below!**

We are a growing multi-discipline practice with 6 offices across the South of England. Due to our continued success we are looking to appoint an Apprentice Civil/Structural Engineer for our Exeter Office starting in September 2022. The successful individual will be enrolled onto a Civil Engineering Degree Apprenticeship with Exeter University where after 5 years you will be awarded BEng in Civil Engineering and their professional accreditation (IEng status) through the Institution of Civil Engineers (ICE).

### **Qualifications**

The successful candidate should have gained at least 5 GCSEs at Grade 5 or above including Maths & English. You should have achieved or on track to achieve at least an ABB at A Levels including a Maths A Level at grade B and another science subject at grade B or BTEC equivalent.

The successful candidate should also have a good understanding of what Civil and Structural Engineering is, and is fully aware of the career path ahead.

All applicants must also have the desire to gain a full drivers licence upon eligibility.

### **Key Duties**

- Generally working with the team and assisting staff both in the office and at site visits
- Be prepared to work on a diverse range of projects including industrial, MOD, commercial, residential and healthcare.
- Collect information from inspections or visits to buildings, land and construction sites
- Production and checking of project documentation, design calculations, drawings, etc.
- Meet with other professionals, clients, customers and others to obtain and provide information relating to land, property or construction

- Production and editing of drawings and 3D models using software such as Revit, AutoCAD, Civils 3D and Flow.
- Be prepared to undertake and maintain necessary training to ensure compliance with all relevant legislation & regulations
- Manage work tasks relating to the area of practice
- Assisting with administration duties where required
- Ensure a safe working environment for themselves and others.

### **Benefits**

- Join a dynamic consultancy with excellent progression opportunities and fully funded training.
- Support and guidance through your apprenticeship.
- Regular and committed training and CPD opportunities
- Up to 27 days holiday (increasing with length of service)
- Regular sports & social events-BBQ's, boat trips, bowling nights and much much more!
- Private Healthcare
- Excellent enhanced pension scheme
- Access to 24/7 counselling through our employee assistance helpline
- Exclusive restaurant, travel and retail discounts.

And much more.....
